Children's Wellbeing Practitioners Service

The Hertfordshire Community NHS Trust Children's Wellbeing Practitioner Team is a new service offer for 2022. The Children's Wellbeing Practitioners (CWPs) are hosted by the Public Health School Nursing Service, however there is a new referral pathway to access support.

The Children's Wellbeing Practitioner (CWP) training programme was driven by Health Education England as a response to ensure that children, young people and their parents/carers have access to evidence based preventative and early intervention support for common emotional wellbeing and mental health difficulties. The aim of the HCT Children's Wellbeing Practitioners is to ensure that children and young people can easily access evidence-based support, early in the development of the problem through workshops, groups and 1-1 interventions.

There are four manualised guided self-help interventions available:

- Child Anxiety (Parent led for children aged 5-11)
- Child Behavioural Problems (Parent led for children aged 5-8. Older children may be accepted in some instances)
- Adolescent Anxiety (For young people aged 11-19)
- Adolescent Low Mood (For young people aged 11-19)

The following workshops are either currently available or will be available later in the year:

- Child emotional wellbeing & regulation
- Emotional wellbeing for adolescents
- Child sleep difficulties
- Adolescent sleep difficulties
- Child self-esteem
- Adolescent self-esteem
- School Transitions
- Exam stress
